

## EnergyTours Energy Out of Nothing

EnergyTours invites you to experience the Danish energy revolution first hand. This tour gives you an opportunity to see how the future in utilization of waste products forms agriculture as well as meet several Danish actors in the field. We offer you the opportunity to experience Danish technology live!

More information on EnergyTours can be found on [www.EnergyTours.dk](http://www.EnergyTours.dk)

---

### 08 AND 15 DECEMBER

---

#### 15:00 **Departure from the Bella Center**

Please register at the meeting point at the BellaCenter main entrance (entrance east) at 14.50 at the latest. Look out for our EnergyTour sign.

---

#### **Visit to Hashøj Biogas plant and Borup Straw Incineration Plant**

We offer you an exclusive chance to see how the future in utilisation of waste products forms agriculture. The tour will give you a insight into why Danish farmers are the largest energy producers in Denmark. When the tour is finished you will have a clear impression of why the agriculture and food sector always should be considered a major player in the renewable energy sector.

---

#### **Hashøj Biogas plant**

The biogas plant was built in 1994 and the plant is today one of the largest and best working in Denmark. The plant produces 25,000 cubic metres of gas per day. The input comes from 220 cubic metres of slurry from the 21 farmers in the cooperative as well as from the industry and large kitchens all over Sealand.

Experience Danish technology *live!*

---

### **Borup Straw Incineration Plant**

In a search for alternative sources of heating, Borup straw incineration plant was established as an independent cooperative owned by the farmers providing the straw for the production of heating. Cooperation with the local district heating plant was needed and at present, the Borup straw incineration plant delivers 97 % of all heating to the district heating customers in the area.

---

18:00

**Arrival at Bella Center**

---

Please note that participating in an EnergyTour is free of charge, and that allocation of seats happens on a first-come-first-served basis. All tours depart from the Bella Center, so you have to be accredited to the UN Climate Summit to participate.

**Pre-register by mail to [contact@energytours.dk](mailto:contact@energytours.dk)**

Please let us know by mail if you will not be able to make it to the tour you have signed up for.

**Please note! All tours depart from the meeting point at the Bella Center main entrance (entrance east). Look out for our EnergyTour sign. Last appearance 10 min. before departure.**
